

## Warrenton Youth Sports Club Travel and SFL Game Day Covid Guidelines:

### Pre-travel guidelines:

- Before attending games, each player should check his or her temperature at home, and refrain from participation if he or she has a fever of 100.4 or higher. They should also review the following pre-session screening questions before attending a game:
- Have you had a documented case of Covid-19 in the last 14 days?
- Have you had any close contact with a sick individual or anyone with a confirmed, or suspected, case of Covid-19?
- Are you currently feeling sick, or having or suffering from any Covid-19 symptoms?
- If a player answers "yes" to any question or exhibits COVID-19 symptoms, he/she will not be permitted to play.
- Team officials must communicate with one another at least 48 hours before games.
- Goalkeepers must sanitize/wash their gloves before arriving at the match.
- All coaches and players must use only their own water bottles.
- Parents must not allow their children to play if they are uncomfortable with or refuse to follow league or game day procedures.

### Facility and Arrival Guidelines:

- Arriving team officials are responsible for making sure their team does not enter the field area until participants of previous games have exited.
- Each club must have a clear entry/exit plan for each facility, which must be communicated to the visiting team – (WYSC will have this in place prior to the first game.)
- All participants (Coaches/players/referees/spectators) must wear masks while entering and leaving the facility.
- Clubs are authorized to require additional facility requirements, which must be communicated at least 48 hours before the game.
- The home club remains responsible for providing game balls, which must be sanitized before providing to the referee for play.

### Match Guidelines:

- Coaches and players on the sidelines must wear a mask and maintain social distance.
- Players are allowed to use the space along the sideline in order to maintain social distance.
- In the event of injury, team staff may access injured individuals in accordance with the first aid management while wearing a mask. Family members may assist as necessary. All others must maintain at least 10 feet social distance.

### Post Match:

- Teams must exit the field area quickly to allow for the arriving teams to enter the facility.
- No post-match line-ups and high fives. Instead, it is a general "thumbs up" and "good game" between players and staff is recommended.
- Both teams must clear the sideline area of any trash before exiting the field.
- Clubs should report matches in which protocols are not followed to the NCSL Rules & Discipline Dept.
- Club coaches are responsible for making sure their teams efficiently exit the field.
